

Logistex provide automated materials handling and software (WMS) solutions for warehousing operations, and we are currently seeking a

Site Supervisor, ITL Nottingham

Reference number: 2022-52

Salary & Benefits: Competitive salary, 33 days holiday including Bank Holidays, pension scheme, tax free childcare, cycle to work scheme, free parking

Hours: 37.5 per week

Location: Nottingham

Contract type: Permanent

Role details: We have an exciting opportunity for a Site Supervisor to join the engineering team at one of our customer sites ITL, Nottingham.

Reporting to the General Manager you will be lead and develop the Logistex engineering team on site. You will be responsible for ensuring that the MHE equipment is maintained to a high level and ensure that the system delivers the required demands in terms of availability and uptime. Health and Safety, Quality Assurance, customer interface and systems support issues are all part of the role. You will directly interface with the ITL operational management team, lead people and manage processes to get results.

This is a day shift role with occasional overtime to cover the operation where necessary. To be successful in this role it is essential that you are able to influence the actions and opinions of others in a desired direction and exhibit judgement in leading others to worthwhile objectives.

Qualification:
HNC / ONC in Engineering

No agencies please.

Closing date: 30th September 2022

To apply: Please submit your CV and covering letter to careers@logistex.com

Logistex Ltd is an equal opportunities employer and will consider all applications on the basis of their relevant merits and abilities.
