

Logistex provide automated materials handling and software (WMS) solutions for warehousing operations and we are currently seeking a

Assistant Site Engineer, JLP Fenny Lock

Location: JLP Fenny Lock

Position Type: Permanent

Are you looking to grow your engineering career in a dynamic and supportive environment?

We're looking for **Assistant Site Engineers** to join our dedicated team at one of our key client sites, JLP Fenny Lock. If you have experience in mechanical and electrical maintenance and enjoy working in a fast-paced, collaborative setting, this role could be perfect for you.

Key Responsibilities:

- Perform reactive and planned maintenance on automated systems and MHE (Material Handling Equipment).
- Diagnose equipment faults, reset errors, and action repairs.
- Support in maintaining and improving system performance to meet 24/7 operational demands.
- Assist with scheduled preventative maintenance activities.
- Maintain accurate service records and log faults.

What You'll Need:

- A background in mechanical or electrical maintenance (FMCG or automation experience preferred).
- Confidence working with automation hardware and software.
- Strong communication skills to liaise with team members and customers effectively.
- Problem-solving skills with the ability to analyse and resolve technical issues.

What We Offer:

- A competitive salary with additional shift premiums.
- A supportive, team-oriented workplace where innovation and continuous improvement are encouraged.

Employee Benefits:

- Member of an Employee-owned trust.
- Cycle to work scheme.
- Option to buy additional holidays.
- Private medical insurance (upon completion of probation).
- Opportunities for career progression and development.

Ready to Apply?

If this sounds like the challenge you've been waiting for, we'd love to hear from you! Apply now, and one of our recruiters will be in touch to discuss the role in more detail.
