

Logistex provide automated materials handling and software (WMS) solutions for warehousing operations and we are currently seeking a

## *Solutions Engineer, Kettering*

**Location:** Kettering

**Position Type:** Permanent

Are you a skilled **Solutions Engineer** with a passion for designing cutting-edge automated warehouse solutions?

Do you thrive in a fast-paced environment where innovation, collaboration, and precision are key? If so, Logistex is looking for a **Solutions Engineer** to join our team!

As a Solutions Engineer, you will play a vital role in developing world-class warehouse automation solutions. You will work closely with the Solution Design Team, suppliers, and engineering teams to deliver high-performing, efficient systems that meet customer needs.

### **What is it in it for you?**

- Company vehicle/ allowance
- Flexibility: Based in Kettering, Northants, this role offers a hybrid working option
- Career development opportunities
- Become a member of an Employee-owned trust
- Cycle to work scheme
- Option to buy additional leave
- Option to join Private medical insurance

### **What will you be doing?**

- Support the Solution Design Team in project development
- Analyse customer requirements to tailor solutions
- Model data flows to optimize warehouse operations
- Design and refine automated warehouse systems
- Prepare compelling technical proposal documents
- Work with suppliers to source the best-fit technology for bids

### **What are we looking for?**

- Bachelor's degree or 5+ years in material handling system design
- Expertise in CAD software (AutoCAD, SolidWorks, Inventor, or similar)
- Strong understanding of material handling processes and tolerances
- Problem-solving mindset with great attention to detail
- Excellent communication & collaboration skills
