

Logistex provide automated materials handling and software (WMS) solutions for warehousing operations, and we are currently seeking a

Field Service Engineer – Midlands Region

Reference number: 2022-75

Salary & Benefits: Competitive salary, company van, 25 days holiday plus public holidays with the option to buy an additional 3 days, pension scheme, tax free childcare, cycle to work scheme, free parking

Hours: 45 hours per week, flexible working between the hours 06:00 – 22:00hrs

Location: Home based with regular travel to customer sites across the Midland region

Contract type: Permanent

Role details: This is a perfect opportunity for an aspiring Field Service Engineer, to join our Engineering Support Services team. You will be required to carry out preventative service maintenance and repairs of customer site equipment.

Reporting to the ESS Controller for the Midlands Region, your key accountabilities will include:

- To complete job sheets, service schedule tick sheets and any other quality records.
- When required, provide assistance in the installation and commissioning of any machines
- Notify the controller of any customer complaint if any are received.
- To comply with the requirements of Service Bulletins
- To comply with the current Service Engineers QA Responsibilities and Health and Safety Requirements
- Raise Quality system queries or suggestions with relevant Manager.
- To assist where possible, the customer in his quality procedures and systems of work
- To assist where possible, other field operations. A main front-line force in the operation of the company.

To be considered for this role you will need to be a great team player with excellent communication skills and be able to prioritise a challenging workload.

Qualifications: A ONC/HNC or equivalent in an engineering discipline is essential

Closing date: 9th December 2022

To apply: Please submit your CV and covering letter to careers@logistex.com

Logistex Ltd is an equal opportunities employer and will consider all applications on the basis of their relevant merits and abilities.
