

Logistex provide automated materials handling and software (WMS) solutions for warehousing operations, and we are currently seeking an

Installations Engineer - home based

Reference number:	2023-23
Salary & Benefits:	Attractive salary, Employee Owned Trust, Company Van, 25 days holiday plus public holidays with the option to buy an additional 3 days, pension scheme, tax free childcare, cycle to work scheme
Hours:	37.5 hours per week plus overtime
Location:	Home based with travel to customer sites. Some overnight stays may be required.
Contract type:	Full time, permanent
Role details:	We are looking to recruit a Health and Safety focused Installations Engineer to support the Installations Manager to assemble and install Logistex specified products and associated equipment in customer sites.

Key accountabilities of this role will include but not limited to:

- Carry out the Preventive Service Maintenance and repair of customer's site equipment and other manufacturer's products and systems, in full response to customer's requirements.
- To test the installation and commissioning of Logistex or third Party supplied equipment.
- To comply with the current working procedures manuals, QA Responsibilities and Health and Safety Requirements
- To assist, if required, other field operations such as servicing, breakdowns and site cover.

Qualifications: To be considered for this role you will have completed a time served apprenticeship in a mechanical and/or electrical discipline or hold a ONC or HNC in Electrical Engineering. Hold a full/Clean Drivers Licence.

No agencies please.

Closing date: 9th June 2023

To apply: To start growing your future at Logistex, please submit your CV and covering letter to careers@logistex.com

Logistex Ltd is an equal opportunities employer and will consider all applications on the basis of their relevant merits and abilities.
