

Logistex provide automated materials handling and software (WMS) solutions for warehousing operations and we are currently seeking a

Database Application Developer

Reference number: 2022-30

Salary & Benefits: Competitive salary, 25 days holiday plus public holidays with the option to buy an additional 3 days, pension scheme, tax free childcare, cycle to work scheme, free parking

Hours: 37.5 hours per week

Location: Kettering/home

Contract type: Permanent, Full time

Role details: To support our dedicated and professional Systems Department, we are looking for a Database Application Developer.

Reporting to the Product Development Manager, the purpose of your role will be to design, develop and test tables, views, dashboards, and reports for Analytex, Logistex's reporting application. Also, to develop the data transfer mechanism using Oracle PL/SQL stored procedures, packages and triggers, and a Java server process and help to design and engineer improvements.

- Develop application deliverables within the time specified and to provide feedback
- Use the current application and data schema
- Use agreed company standards so that work can be easily understood, checked and maintained by others.
- Use the issue logging systems (currently Java) to report faults
- Assist with software build deliveries to test and site environments

Qualifications: Bachelor's Degree or equivalent in a relevant technical subject is desirable

Technical knowledge required: Oracle SQL and PL/SQL, Oracle Apex, Java and C++, competent in linux based operating systems. Able to write shell scripts.

No agencies please.

Closing date: 8th July 2022

To apply: To start growing your future at Logistex, please submit your CV and covering letter to careers@logistex.com

Logistex Ltd is an equal opportunities employer and will consider all applications on the basis of their relevant merits and abilities.
