Site Engineering Manager – B&Q Worksop

Reference number: 2024 - 44

Salary & Benefits: Competitive salary, 25 days holiday plus bank holidays with the option to buy an additional 3 days, private healthcare, company car, company pension, flexible benefits, free parking

Hours: 8am to 4pm (Flexible)

Location: Worksop

Contract type: Permanent

Role details: This is an exciting opportunity for a Site Engineering Manager to lead our engineering team based at B&Q Worksop, who will engage, motivate and develop the team on site.

Reporting to the General Manager – Northern Region you will lead and manage the company's site maintenance operation and ensure that the commitments of the support agreement are met at B&Q. You will be required to build and sustain a positive relationship with the on-site customer's management team as well as developing and maintaining a culture of continuous improvement amongst the engineering team.

To be successful in this role it is essential that you are an experienced and engaging people manager with the ability to prioritise and manage tasks simultaneously. You will be self-motivated and ensure that customers (internal/external) know what to expect by keeping them informed of progress whilst being resourceful to meet any complex needs that may arise.

In addition, you should have the confidence to challenge the status quo to initiate action to eliminate poor product process and quality system non-conformities whilst maintaining and enhancing the H&S culture.

No agencies please.

Qualifications: Degree, HND, HNC or equivalent in an engineering discipline. A management qualification is desirable. Leadership, management, or supervisory Training.
Must have experience of Warehouse Management Systems and use of diagnostic tools.
