

Logistex provide automated materials handling and software (WMS) solutions for warehousing operations and we are currently seeking a

Senior Solutions Design Engineer

Reference number: 2021-73

Salary & Benefits: Attractive salary, Company car or allowance, Private Medical Insurance, 25 days holiday plus public holidays with the option to buy an additional 3 days, pension scheme, tax free childcare, cycle to work scheme, free parking

Hours: 37.5 hours per week

Location: Flexible – home/office

Contract type: Permanent

Role details: Logistex provide automated materials handling and software (WMS) solutions for warehousing operations. We are specialists in storage and retrieval, order forwarding, picking and sortation systems. Our services cover warehouse/materials handling design & implementation, warehouse management software and control systems, equipment refurbishment and maintenance, facilities management and 24/7 hotline support and spares.

What you'll do on a typical day as a Senior Solutions Design Engineer:

- Analyse customer requirements
- Model data flows to support solution design
- Design automated warehouse solutions
- Prepare technical proposal documents
- Liaise with suppliers to assess most appropriate equipment for Logistex bids

What you need to succeed at Logistex:

- Experience in automation solutions design is essential
- Good understanding of standard IT packages, knowledge and experience of CAD
- Comfortable presenting to groups of up to 10 people

No agencies please.

Qualifications: Relevant qualifications are desirable

Closing date: 9th December 2022

To apply: To start growing your future at Logistex, please submit your CV and covering letter to careers@logistex.com

Logistex Ltd is an equal opportunities employer and will consider all applications on the basis of their relevant merits and abilities.
