

Logistex provide automated materials handling and software (WMS) solutions for warehousing operations and we are currently seeking a

Senior Controls Engineer – Kettering/Hybrid

We are looking for a **Senior Controls Engineer** to join our expanding team!

This is a unique opportunity to work on cutting-edge projects, involving the design, development, and implementation of advanced electrical and control systems for automated warehouses.

About Us:

Logistex is a leading provider of innovative software solutions for the automated warehouse and supply chain industry. We have recently won our largest order to date with a highly regarded customer, further solidifying our position as an industry leader. As an Employee-Owned Trust (EOT), we are committed to ensuring that our employees have a direct stake in the company's success and future growth.

Key Responsibilities:

- To design, plan and develop PLC control solutions
- Assist in the development of OT layer cyber security solutions.
- Produce technical documentation, complete specification, costings and time plan for each assigned project
- Write the FDS for projects as required and co-ordinate with colleagues within Engineering and within Systems to ensure alignment of functionality and interfaces.
- Develop PLC software and HMI code for projects and to commission the software on site
- Provide support to other departments, participate in design planning

Qualifications & Experience:

- Expert in Siemens TIA Portal, Simatic Manager, Siemens TIA Safety
- Experience of VFD control, Safety hardware and Barcode readers, Allan Bradley PLC programming
- Knowledge of IEC 61131
- Degree, HND or HNC in Engineering and competent in Windows based systems
- 13849-1 Safety course

What We Offer:

- A chance to work on one of the largest and most exciting projects in the industry.
- A collaborative and dynamic work environment with comprehensive training and career development.
- Competitive salary and benefits, including health, pension, and performance-related bonuses.
- Flexible working arrangements, with occasional travel to project sites.

If you are an experienced electrical engineer ready to lead and be part of revolutionary projects, we want to hear from you. Apply today by sending your CV to careers@logistex.com

Logistex is an Equal Opportunities Employer, committed to fostering an inclusive and diverse workplace. We welcome applicants from all backgrounds, as we believe that diversity drives innovation.
