Site Engineer – DHL Bicester

Reference number: 2022-51

Salary & Benefits: Competitive salary plus shift premium, 264 hours including public holiday included in the shift pattern and 160 hours bookable flexitime, total 424 hours holiday, pension scheme, tax free childcare, cycle to work scheme

Hours: 40 hours per week, 5-week rotating shift

Location: Bicester

Contract type: Permanent, Full Time

Role details: We have an exciting opportunity for a Site engineer to join our engineering team at one of our customer sites DHL, at Bicester.

Reporting to the Site Manager you will be working within the Logistex / DHL team on site ensuring that the equipment is maintained to a high level of operation and that the system delivers the required demands for its operation.

Your duties will include conducting routine maintenance on the automated cranes, conveyor systems and general warehouse facilities. Using a dedicated LWS system to monitor the operation and ensure any stoppages are dealt with promptly and advise the customer of any stock issues.

To be successful in this role it is essential that you are a well organised, reliable, and committed individual that is able to communicate effectively with not only your team members but also the customer. Previous crane and conveyor equipment experience is desired however you must be confident with working at height.

Qualification:
Mechanical/Electrical formal qualification – Essential

No agencies please.

Closing date: 31st March 2023

To apply: Please submit your CV and covering letter to careers@logistex.com

Logistex Ltd is an equal opportunities employer and will consider all applications on the basis of their relevant merits and abilities.
